Service Investigation Request

North Rural Water Supply Corporation (NRWSC) is a member-owned, not-for-profit public water supply provider. To determine whether a prospective member may be served by the system, NRWSC requires a **Service Investigation** conducted by the Corporation's Engineer or Superintendent. This investigation evaluates:

- Whether an existing water distribution line is available to serve the property
- Whether the existing line has sufficient capacity for an additional connection
- Any costs associated with providing a new water service connection

The standard installation cost for a new water meter is \$5,200.00. Any costs related to system improvements required to serve the property (including but not limited to line extensions, road bores, or upgrades) shall be paid by the applicant.

To initiate a Service Investigation, complete and return this form by mail or email (kellyr@northruralwsc.com) along with:

- A **non-refundable Service Investigation fee of \$175.00** (check payable to NRWSC), and
- A **map clearly identifying the property location and proposed meter placement**

The Service Investigation fee will be applied toward the total cost of a new meter, if service is approved. This request and all related documentation are valid for **90 days** from the date of submission. If service is not activated within that period, a new application and fee will be required.

Name: _____ Phone: _____ Date: _____

Billing Address: _____

Email: _____

Service Address: _____

Residential Commercial: Type of business _____
 RV Park Other: _____

Anticipated number of meters? ____ Sprinkler System **Y N** Swimming Pool **Y N** Private Well **Y N**
